

NICOLE SURAWSKI

Product Manager · Solutions Consultant · Customer Success

nicolesurawski@gmail.com · (203) 518-2225 · Los Angeles, CA · [linkedin.com/in/nicole-surawski](https://www.linkedin.com/in/nicole-surawski)

SUMMARY

I've been a stylist, a software engineer, and a solutions consultant. I don't bridge worlds — I've lived in all of them. Now I'm channeling a decade of cross-functional experience — customer empathy, technical fluency, and revenue ownership — into product management. I'm the PM who has sat in the customer's seat, built the tools, and owned the outcomes.

EXPERIENCE

Customer Success Manager | [Criteo](#)

Nov 2023 – Jan 2026 · Remote

- Managed a portfolio of ~30 accounts worth \$1.5M/month in ad spend, maintaining an average SLA response time of 5 hours
- Drove an enterprise clients' monthly budget from baseline to \$120K/month through strategic performance reviews and incremental upsells
- Rebuilt client relationship by taking full ownership of all CSM tasks post-escalation, resulting in a budget increase and restored trust
- Designed a creative banner solution for a large client to mitigate recurring technical issues, preserving campaign performance and client confidence
- Maintained a perfect CSAT score of 5/5 across all managed accounts
- Partnered cross-functionally with Product, Engineering, and Ad Ops to translate client pain points into actionable platform feedback

Technical Solutions Specialist | [Criteo](#)

Nov 2021 – Nov 2023 · Los Angeles, CA

- Provided technical solutions support for a SaaS advertising platform — troubleshooting APIs, data flows, and system integrations
- Diagnosed and resolved complex platform configuration issues, reducing escalation volume and improving client onboarding time
- Served as the bridge between Sales, CS, and Engineering — translating technical constraints into client-facing language

Wardrobe & Food Stylist | [Freelance](#)

Nov 2018 – Nov 2021 · New York, NY

- Delivered creative services aligned to brand goals, managing client relationships, budgets, and evolving production requirements
- Collaborated with photographers, art directors, and designers to execute on digital and print campaigns

Software Engineering Fellow | [General Assembly](#)

Nov 2020 – Feb 2021 · Remote

- Completed an immersive full-stack software engineering program focused on Agile methodologies and modern development practices
- Built and deployed full-stack web applications using JavaScript, React, Python, Django, Express, Node.js, and SQL

Merchandising Manager | [Material World](#)

Sep 2015 – Oct 2018 · New York, NY

- Partnered with software engineering teams on UI/UX initiatives and internal tool implementation — tested and validated workflow software prior to deployment
- Led change management initiatives and coordinated cross-functional teams to hit operational milestones
